Social Media Today. As you can see here, for the report, the researchers conducted a survey of 2,230 consumers across 11 markets, to glean more brand wants to be on social media. While this may seem simple, it can get more complicated than you’d initially expect.

7 Ways to Write More Like-able Social Media Copy | WordStream

What kind of people they really are. The vast majority of social media “friends” are not friends at all; people have never met them, and couldn’t pick them out in a crowd.

Social media are interactive technologies that allow the creation or sharing/exchange of information, ideas, interests, and other forms of expression via virtual networks and communities. While challenges to the definition of social media arise due to the variety of stand-alone and built-in social media services currently available, definitional debate is not likely to affect our ability to analyze social media content and communications.

The term popularity is borrowed from the Latin term popularis, which originally meant “the common people.” The term is now used to describe people, places, or things that are widely popular or well-liked.

Study: Social Media Making People Anti-Social, Jealous
